jUnit

Monkey Testing ?

Monkey Testing ?

- Monkey button push testing
- Smart monkey testing
- Brilliant monkey testing
- Dumb monkey testing

Monkey for Android

- Command line tool
- Random events

http://developer.android.com/tools/help/monkey.html

How to use ?

$adb shell monkey -p <your package> -v <# of events>

For my app

$adb shell monkey -p **up1.mycalculator** -v **2000**

See result and fix code !!
